

Welcome to Maricopa County Regional School District

MCRSD provides students with a standards-based, rigorous curriculum to prepare them for success on state and national assessments, along with the essential skills needed to achieve excellence in life.

The curriculum for each grade level is based entirely on the Arizona K-12 Content Standards as the foundation for teachers to use textbooks, technology, and other materials to build rich learning experiences. Each building level administrator will lead the curriculum relying on direct support from the Assistant Superintendent for Curriculum. The MCRSD philosophy is to continuously assess students throughout the year so teachers can tailor their instructions to the specific strengths and weaknesses of their students. Vision Empowering students to take control of their future by providing an education that inspires and enables them to develop an unshakable belief in their own potential. Mission

Preparing our students for their transition into the global community by providing quality educators and staff dedicated to cultivating a passion for life-long learning through the use of technology, assessments and character development in a safe learning environment.
